REVIEW

OF THE

MANAGEMENT OF ESTATES

IN THE

COURT OF WARDS

OR UNDER THE

TALÚQDÁRS' RELIEF ACT IN OUDH,

FOR THE YEAR ENDING 30TH SEPTEMBER, 1882.

THE statistics relating to the management of the estates under the management of the Deputy Commissioners in Oudh in 1881-82 are contained in the appendices to this review.

2. The year began with 57 estates, administered either under the provisions of the Talúqdárs' Relief Act, or in the Court of Wards. Six were added in the course of the year to those under the Court of Wards; two in the Bara Banki district, and four in Rae Bareli. The returns thus refer to 63 estates. Their gross rental was Rs. 16,39,532.

3. In appendix I. are detailed the demand and collections of rent from land, the main source of income in these properties. An abstract of the results of the management in the recovery of rents is given for each district in the following table :—

District.	Number of estates.	Demands.			Collections.			Percentage of collections		
		Current rents.	Arrears of rent.	Total.	Current rents.	Arrears of rent.	Total.	Of current rent to demand.	Of arrears rent to demand.	Of total collections to annual rental.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			
Lucknow ...	1	68,180	23,040	91,220	66,120	7,042	73,162	97	31	107
Bara Banki ...	7	1,29,259	50,221	1,79,480	1,23,182	11,005	1,34,188	95	22	104

Total ...	63	16,39,533	4,69,904	21,09,437	15,21,411	1,74,214	16,99,960	93	37	104

4. The rent collections were thus on the whole four per cent. in excess of a year's rent. In 1881 they fell eight per cent. short of it. In 1880 they were three per cent. in excess. The rent receipts naturally vary with the harvests. In 1881 the kharíf had been seriously affected by drought: both in 1880 and 1882 there was a recovery of agricultural prosperity under the influence of better seasons. The harvests of the year are not described as particularly good; and in the Sitapur Division some of the crops suffered considerably, but prices remained at the level they had reached during the dry season that preceded, and rents are stated to have everywhere come in without pressure. The collections were below the average in the Sitapur Division, but for this there is sufficient explanation in the inferiority of the harvests. The least satisfactory results, considering all circumstances, were in the Bahraich and Gonda districts. In the former district in particular the collections do not seem to have received the detailed supervision which is required. In most villages the collections were admirable, but in others there were extraordinary defaults, of which no explanation has been tendered.

5. The collection made of arrear rents was in some districts remarkable. In Fyzabad, which shows the highest percentage, the realisations are explained to be to some extent nominal. Some under-proprietary tenures were bought in by the estates, and the value written off against the claim for outstanding balances of rent. But in Rae Bareli, which shows a very large recovery of rent arrears, the entries are a record of genuine receipts from the tenantry. The estates of this district were reported to have suffered so severely from the failure of the rains in 1879-80, that it was considered in the last review of Estates' administration in Oudh a matter for surprise that the tenantry had been able to pay so much as four-fifths of their year's rent. It was stated then as a probable inference that either the damage to the harvests had been unconsciously exaggerated, or the tenantry were

generally possessed of resources much beyond any estimate that had yet been formed of them. The Estates' Officer of Rae Bareli, in a most interesting report on the business of the year, takes the latter view. "I am fully satisfied that these good results have been obtained without putting undue pressure upon the tenants; and considering the succession of bad seasons the district has suffered from of late, I think they afford very satisfactory proof that, in spite of all that has been said to the contrary, the ryot has got a considerable stock of recuperative power concealed about him somewhere. The success of this year is mainly attributable to three causes: firstly and principally, good rains; secondly, to the number of improvements which have been carried out on these estates; and thirdly, to the fact that the *asámís* have under a long course of firm management learnt the lesson that, when they have the means, they must satisfy the landlords' claims before they do anything else. There is an obvious proof of the reality of the third reason given above, in the fact that it has very seldom been found necessary to resort to rent courts for assistance." It is at least satisfactory to find that, in a district in which, as compared with its neighbours, rents are undoubtedly high, the tenants have still a considerable margin of profit, and are able without pressure to meet from the harvests of a good year the rent debts incurred in a bad one.

6. From all districts except Lucknow, Fyzabad, and Rae Bareli, detailed lists have been received of rent balances proposed for remission. These were carefully checked by the Estates' Officers in the course of their tours, and on their recommendations remissions have been granted this year to the amount of Rs. 40,585.* In Rae Bareli a remission of Rs. 15,128 was made last year, and the officer in charge deferred any further proposals till he had himself made the round of his estates. The determination of items for remission is a delicate duty: for, on the one hand, it is necessary to avoid

	Rs.
Lucknow Division ...	7,310
Sitapur ditto ...	6,782
Fyzabad ditto ...	6,713
Rae Bareli ditto ...	19,780

the risk of allowing the tenantry to suppose that balances will be remitted simply because they are balances; and, on the other hand, it is most undesirable that a tenant, struggling with difficulties for which he is not responsible, should be kept under the constant sense of a burden from which he cannot free himself. The Lieutenant-Governor is glad to find from the details that have been submitted that the duty is performed on the whole with discrimination and liberality.

7. On several estates an analysis of the rent balances has been given, which is of some interest, showing the percentage of the balance due from the several classes of the estate-tenants, and the ratio the arrears bear to the annual rents due from those classes:—

District.	Rent balances for which details are given.	Sub-settlement holders.	Other sub-proprietors.	Lessees.	Tenants with rights of occupancy.	Ordinary tenants.
	Ratio of balances to the total.					
	Rs.					
Lucknow	18,058	1½	...	1½	1	96
Bara Banki	43,261	9	2	...	...	89
Sitapur	6,426	...	...	20	...	80
Hardoi	30,857	13	...	8	3	76
Kheri	3,712	3	...	26	...	71
Fyzabad	3,746	20	24	...	5	51
Gonda	14,646	3	...	16	10	71
Partábgarh	10,593	34	5	5	...	55
	Ratio of balances to annual rent.					
	Rs.					
Lucknow	18,058	8	...	4	150	34
Hardoi	30,857	17	...	...	100	21
Kheri	3,712	5	...	2	...	19
Fyzabad	3,746	2	9	...	6	6
Partábgarh	10,593	22	9	8	...	10

8. The first table is chiefly of use to the Estates' manager, as showing him the portion of his balance, for the recovery of which there is a tangible security. In Hardoi, Fyzabad, and Partábgarh, a large share of the rent debts are due by men of the under-proprietary classes. In the districts in which corn rents prevail, leasing is much more frequent than in the south, and the leases are guarded by surety bonds. But the point of main interest in these details is the extent to which the arrears have run, as judged by the annual rents. In this regard there is some difference of experience. The Deputy Commissioner of Kheri finds it more easy to collect from his under-proprietary tenants because their rents are lighter. The Deputy Commissioner of Fyzabad finds it less easy, because there is no means of compelling payment, except by suit in the rent courts. In the eastern districts small under-properties of all kinds are so numerous, that example is infectious when rent payment is evaded, and in such event the lesser remedy of distraint cannot be applied; at the same time the undiscriminating use of distraint is destructive of its utility. A striking example of this is narrated by the Estates' Officer of Sultánpur. In a village notorious for default it had been the practice constantly to distrain the crops. Mr. Wells visited the village, collected the tenants, and on their promise to pay withdrew the distraint. The promise has been "loyally fulfilled." The incident shows not merely the influence which an officer will gain who mixes freely with the people, and enquires patiently into their grievances. It indicates the necessity of considerateness in the employment of the processes placed at the disposal of the landlord for the realisation of his rent. In this case the villages had been harassed into a sulky attitude by unfair treatment, and the remedy lay, as the Estates' Officer was wise enough to discover, not in the enforcement of severe measures, but the adjustment of them to circumstances.

9. The balances of under-proprietary rent seem to be nowhere so large as to suggest that the provisions of the

law of recovery are working to the detriment of landlord or tenant; but it will be of interest if the Deputy Commissioners in the eastern districts will, in their report for the current year, examine results in some few of those villages in which they have had most trouble from tenantry of this class, as to how far it has been necessary to recover the rents by suits at law, and whether in execution much of the under-proprietary right had changed hands or abated.

10. The balances of sub-settlement rent in Hardoi and Partábgarh are considerable. In the former district it is reported that attachments have been made under section 158 of the Revenue Act. The same remark was made last year, and attachment seems to have been of little avail. When the Deputy Commissioner decides to proceed under this section, his action should be prompt and firm. It is better he should not move at all than move with a hesitating purpose. The section arms him with very large powers for the restraint of people who deliberately omit to pay their rents. He will not take action if he has reason to believe that the default was excusable; but when it is not so, and he issues process for its realisation, he must take measures in the interests of example that the process is quickly and certainly effective.

11. The estates in Lucknow and Hardoi contain arrears of very old standing, much of which is irrecoverable, and statements for the remission of part of which have been received. This may account in part for the very heavy arrears of rent in occupancy holdings. The Deputy Commissioners are requested to submit some further details and explanations on this matter in their report for the current year.

12. Generally, the balances on the tenantry are very moderate, and there is no more interesting feature of these returns than the honourable and patient way in which the tenantry set themselves to pay in a better season the balances

of the estate dues. A case is reported in which some tenants disappeared three years ago, leaving heavy arrears behind them. This year they presented themselves with the amount of their rent debt, saved by labour in Burmah, and asked to be restored to their holdings. These virtues are probably common to all the peasantry of Oudh; but there seems to be little question that the administration of estates by the officers of Government is thoroughly appreciated by the rural classes. They are on the whole treated there with much consideration, and except where their rents are extravagantly low, they are practically secured during good behaviour in the undisturbed occupation of their holdings.

13. In appendix II. are detailed the income derived otherwise than from land rents and the balances uncollected. This is a branch of the management of the estates which was formerly much neglected, but in which a marked improvement has been shown of recent years. A comparative abstract of the receipts and balances is subjoined:—

	Demand.	*Collections* 1881-82.		1880-81.	1879-80.
		Amount.	Percentage of demand.		
	Rs.	Rs.		Rs.	Rs.
Rent of houses ...	1,421	1,188	84	88	67
Takávi	38,935	27,458	71	43	44
Law expenses ...	24,608	10,524	43	35	32
Interest	19,588	15,701	80	84	97
Miscellaneous ...	3,12,548	2,91,821	93	93	63
Total ...	3,97,100	3,46,692	87	84	57

There is still, however, considerable difference in the success of the several Estates' Officers in the realisation of these dues:—

		Rs.			
Lucknow, out of	a demand of	13,512	realised	47	per cent.
Bara Banki	"	47,735	"	78	"
Sitapur	"	2,879	"	55	"
Hardoi	"	17,953	"	94	"
Kheri	"	3,210	"	45	"
Bahraich	"	12,145	"	81	"
Gonda	"	5,039	"	76	"
Fyzabad	"	5,038	"	69	"
Sultánpur	"	16,252	"	62	"
Rae Bareli	"	2,49,099	"	91	"
Partábgarh	"	37,814	"	96	"

In Lucknow the shortcoming was due to the omission to recover punctually the interest due on loans made by the estate; but the loans are secure, and greater care will be taken in this matter in the present year. In Sitapur no explanation is given, and more attention seems to be needed to these details. In Kheri a considerable portion of the balance is due in takávi loans, the recovery of which the Deputy Commissioner, in consideration of the unfavourable season in his district, refrained from pressing. In Rae Bareli the account is swelled by the inclusion of loans, amounting to Rs. 1,42,700, which were taken on three wards' estates to pay off debts, paying a higher interest. The recovery in the large sums of takávi which had been granted in this district is very creditable to the Estates' Officer, and a satisfactory indication of the condition of the tenantry.

14. In all districts the recovery of law expenses is still very poor, and it is more and more evident that the realisation of rents through the rent courts is not a paying process. As was said last year, if decrees cannot be executed, it is waste of money to obtain them. This is being, however, better recognised in the management, and the expenditure on law-suits is steadily diminishing. In 1879-80 it was 2·5 per cent. of the whole expenditure of the year; in 1880-81, 1·7; last year, 1·4.

15. Statements have been received and passed for the remission of Rs. 8,992, irrecoverable balances of the items of miscellaneous income.

16. In appendices III. and IV. the expenditure of the receipts on the several estates is accounted for under the several heads: an abstract is given below:—

Heads of expenditure.	Amount expended, 1881-82.	Percentage of total income of year		
		1881-82.	1880-81.	1879-80.
	Rs.			
Overdue Government revenue, including cesses and rates.	54,366	2·7	0·4	1·4
Current ditto ditto ...	8,22,877	40·2	44·4	51·1
Management	73,230	3·5	3·9	4·5
Maintenance	1,49,551	7·3	8·7	8·4
Extraordinary allowances to proprietors.	32,445	1·5	2·1	1·9
Law expenses	28,811	1·4	1·7	2·5
Subscriptions	9,536	0·5	0·5	0·5
Schooling expenses of minors ...	4,413	0·3	0·2	0·1
Improvements	43,194	2·1	4·2	1·3
Miscellaneous (including pay of village police and accountants).	1,89,007	9·3	9·4	9·3
Debts	5,22,260	25·5	22·9	14·4
Total ...	19,29,690	94·3	98·3	95·3
Balance ...	1,15,797	5·7	1·7	4·7
Total income of the year ...	20,45,487	100·	100·	100·

The whole of the current land revenue demand was paid, with the exception of a small sum of Rs. 9 in Gonda, of which no explanation is given, and which was probably left unpaid by an oversight. The estates owed at the beginning of the year a balance of revenue amounting to Rs. 56,210, principally in the Rae Bareli and Bara Banki districts, which had been suspended in consequence of the harvest losses of the previous season. The whole of this was paid off with the exception of Rs. 1,850 in the Rámnagar estate, the recovery of which has been spread by order of Government over a period of three years.

17. The Government demand is 47 per cent. of the land rental of the estates under management. The high percentage of the revenue on the receipts in 1879-80 was due to the short collections of rent in that year.

18. The cost of management fell lightly on the increased collections of the year, and is exceedingly moderate.

19. The allowances to proprietors underwent little change, and the allotments required for extraordinary expenses were below the average. In law expenses, as has been already noticed, there was a satisfactory reduction.

20. The special allotments for the education of minors (in addition to their regular allowances) were considerably increased. The reports which have been received as to the progress in the tuition of the minors in the charge of the several Deputy Commissioners are encouraging. Most of the minors, who are old enough to attend school, are being educated at the zila schools; two are under private tutors; four are at the Aligarh College; and, with two exceptions, the Deputy Commissioners are satisfied with the progress made in their general education during the year. The care which the Estates' Officers of Fyzabad and Rae Bareli have personally taken in the training of their wards, deserves special commendation. A scheme is now under the consideration of Government for the formation of a college for the wards of the united provinces, in which it is hoped their education may receive special direction to fit them for their future position as owners of considerable properties.

21. The expenditure on improvements was nominally half that of the preceding year. But this was due in the first instance to the greatly reduced necessity of takávi advances to the tenantry; and very considerable progress has been made in the construction of improvements through the tenants themselves,—the system which is perhaps of most advantage to the estates, whether it be considered

from the point of view of practical success, facilities of extension, or the general benefit of the tenantry.

22. In Lucknow, in the one estate under the Deputy Commissioner's charge, two new wells were built, seven put in repair, Rs. 400 laid out in the construction of new roads, and 300 acres brought under cultivation. In Bara Banki nothing was done. There are no estates in the province in which measures for protection against drought are more needed. The district was unfortunate in repeated changes in the Deputy Commissionership; but proposals had been called in for a definite scheme of improvements, to which the present Deputy Commissioner is now giving careful effect. In Sitapur there was a similar neglect, for which there was less excuse. In Hardoi a sum of Rs. 2,685 was spent, chiefly in loans to tenants for the construction of wells. Complaints were made of the want of masons with a competent knowledge of well-sinking, and the Department of Agriculture has undertaken to assist. The soil of Kheri stands in little need of irrigation wells. It is low and moist. Drinking-wells are essential. The estates built seven wells at a cost of Rs. 1,370, and got 10 more built by the tenantry on assignments of lands for groves. Behea cane-mills and Kaisar ploughs were introduced by the Deputy Commissioner, and the former have been in eager demand. In Bahraich the circumstances are very similar. The Deputy Commissioner spent about Rs. 1,000 on drinking-wells, and promises more extended undertakings in the present year. His neighbour in Gonda did little better, but he made a beginning by getting five wells built by his tenants, for the most part on the grant of lands for groves. The Estates' Officer of Fyzabad was more successful. He built six wells, constructed three dams, which promise to be of much utility, and repaired the wells in 10 villages. Further, he got 44 wells built for him by his tenants on terms of all sorts: sometimes in consideration of leases varying from 10 to 20 years, sometimes by the grant of grove-land, sometimes with the

assistance of loans, but the actual outlay of the estates for the construction of these 44 wells came to no more than Rs. 878.

23. In Sultánpur three wells were built by the Estates' officials, of which one, as not infrequently happens, proved a failure: 19 were built by tenants. The terms exacted in these estates appear to be somewhat stringent. The Estates' Officer admits there are portions of his charge in which the greater security of irrigation is of urgent importance. In these circumstances, if the indebtedness of the estates, or the lack of professional knowledge among the regular establishment, prevents the Superintendent from himself undertaking the construction of wells, he must be more liberal in his tenders to the tenantry than he could afford to be did he hold a more independent position. On estates with a rental of nearly 2½ lakhs there were made exactly half the number that were built on the Fyzabad estates with a rental of one lakh. In Rae Bareli there is a still more brilliant example of what can be done with the aid of the tenantry, and it is of far more importance to the financial condition of the estates that the tenantry should be secured in comfort, and the recovery of the yearly rental to that extent assured them that the rights of the improvers should be very carefully narrowed. The precise terms on which well-building can be most readily induced vary from district to district, and indeed from tenant to tenant. No rigid rule should therefore be laid down, but the Estates' Officer prepared within reasonable limits to suit his terms to the circumstances of his clients.

24. In Rae Bareli the wells seem to be built almost invariably with only a money-help, and on these terms the improvement of the estates has received an extraordinary development. The yearly rental amounts to nearly 5½ lakhs. In the area yielding this income, 204 wells and three dams were built during the year. One hundred and sixty-seven of the wells were made with the help of advances; 31 in return for a grant of grove-land;

six only in consideration of an extended lease. The advances given came in all to Rs. 17,322. Some idea of what these investments mean may be formed from the following rough figures. The cultivated area in the estates may be taken at about 95,000 acres, of which, on the basis of the returns furnished for this district to the Famine Commission, about 33,000 were at that date probably protected by well-irrigation. If the irrigable area per well be assumed as in the Gazetteer at 12 acres, the addition to the well-protected area in these estates during last year may be estimated at 2,500 acres, or a twelfth of the area previously under protection. The energy and good tact with which Mr. Arthur Harington addressed himself in this district in 1880 to persuading the people to take loans for well-building have been repeatedly acknowledged by Government, and his successors have maintained his example, not only in the estates under their charge, but throughout the district generally, with signal success and benefit to all classes of the country, landlord and tenant alike.

25. In Rae Bareli efforts were made to introduce improved ploughs and such produce as mangel wurzel and sorghum, but they met with little favour: and the estate bulls were considered too big for the cows of the country. Trees were planted along the estate roads. These are watered and maintained at the expense of the estates. The experiment does not appear to have been tried of making them over to the villagers to tend—a system which elsewhere has been found to answer better than any other.

26. In Partábgarh only three wells appear to have been built; and the Deputy Commissioner, it is to be hoped, will have better results to show this year.

27. On the whole, however, this branch of Estates administration has been more carefully and successfully attended to than before. In some districts, especially Rae Bareli and Fyzabad, the results have been admirable, and

an example has been set which the Lieutenant-Governor trusts will be followed elsewhere.

28. The sums advanced to the tenantry in takávi, that is, for the purchase of cattle and seed, or the construction of wells, amounted in all to Rs. 26,773. This was little more than half the sum given out in the previous year; but, fortunately, the outturn of the harvests rendered assistance much less necessary. The outstandings due in the year under report were—principal, Rs. 36,607; interest, Rs. 2,328; total, Rs. 38,935. The recoveries came to only Rs. 27,458. Here, too, there was great difference in the achievements of the several Estates' Officers. The table below gives the amount due in each district and the percentage recovered:—

		Rs.			
Lucknow,	due	2,519	recovered	14	per cent.
Bara Banki	"	3,390	"	78	"
Sitapur	"	38	"	34	"
Hardoi	"	1,274	"	63	"
Kheri	"	826	"	25	"
Bahraich	"	513	"	35	"
Gonda	"	1,031	"	50	"
Fyzabad	"	412	"	63	"
Sultánpur	"	2,016	"	74	"
Rae Bareli	"	25,284	"	78	"
Partábgarh	"	1,546	"	100	"

29. In transactions of this sort a certain amount of loss must be expected. An advance is made to a broken-down tenant in hopes of keeping him on the estate, and he afterwards fails altogether; but the proportion of loss, if the advances are made with discretion, ought not to be very large: and in a year of good harvests, the endeavour should be made to keep the tenants to their arrangements with some punctuality, or the system of loans degenerates into an undiscriminating charity over which there is practically no control, and from which there is but indifferent benefit. No explanation whatever is given of the deficit in Lucknow; and though the Deputy Commissioner of Kheri says truly that the collections of rent and takávi rise and fall together, there was no such check of his rent recoveries as in his takávi list, nor is the reason apparent for Kheri and Bahraich to be

in this respect so far behind their neighbours of Hardoi and Gonda.

30. The debts of the estates were reduced by a sum of Rs. 5,22,260. The debts due on them, when first brought under charge, amounted to Rs. 38,05,940. At the commencement of the year they stood at Rs. 25,23,735; but there was an outstanding claim for interest of Rs. 46,645, which had remained unpaid in consequence of the short collections of the previous year. The debt account at the close of the year stood at Rs. 21,31,199, with Rs. 29,492 interest. Of this the sum due to Government is—

			Principal. Rs.	*Interest.* Rs.
In encumbered estates	...	...	8,82,529	53
In wards' estates	...	...	5,16,600	...
			13,99,129	53

The progress in the satisfaction of debts depends on the condition of the rent collections; and as the debt is the last item to be paid—the receptacle of the surplus—its adjustment varies with the amount by which the collections exceed 90 per cent. of the rent-roll. As the rent collections were in the past year very high, corresponding progress has been made in the satisfaction of the debt. Details as to individual estates will be found in the separate estate notices, which are appended to this review.

31. Of the 63 estates in management during the year, 25 were administered under the Talúqdárs' Relief Act. These are the balance of the 47 estates which were originally brought under the Act. The more lightly indebted have meanwhile been cleared, those remain in which the debt was the heaviest. After 12 years of management the debt has been reduced by about a half. The debt, originally about 17½ lakhs, is now nine. None of these estates were cleared during the year under report, but the probabilities are that three, if not four, will be discharged before the close of the present one.

In 1873 there were 47 estates under this Act, with a debt of 32¼ lakhs: 22 with a debt of 15 lakhs have been meanwhile cleared and discharged.

32. Estates in the Court of Wards come into it sometimes with a heavy debt, sometimes with none. In some cases the period for which management obtains is a long one, in others the minority or disqualification is short. The results of management are more distinct, therefore, in some estates than in others. It has been hitherto the practice to admit to the Court of Wards the estates of persons, not minors, who apply to be disqualified from managing their properties. Such estates have usually been very heavily involved, and this accounts for the heavy outstanding debts. The Lieutenant-Governor is disposed to doubt the advisability of admitting estates heavily encumbered, except for very special reasons.

33. One of the wards' estates was restored during the year on the owner coming of age, the Muhammadpur property in Bara Banki. When management was assumed in 1874 on the death of the father of the present owner, it was involved in a debt of Rs. 1,46,000, and the case seemed a very hopeless one. The property was small, paying in all only Rs. 6,500 of revenue, and nearly the whole of it was in the hands of mortgagees on bonds with a very heavy interest. Part of the estate was sold for Rs. 90,000; a loan was raised for Rs. 52,000 by which 10 villages were redeemed, at a gain to the estate in interest charges of Rs. 2,265 per annum; and towards the adjustment of the two remaining original mortgages, amounting to Rs. 17,500, a sum of Rs. 9,000 had been accumulated. Why this was not utilised, in accordance with the directions given last year, in the reduction of one of these, the Deputy Commissioner does not explain. The income is no more than sufficient with the greatest economy to pay the current interest on the debt, and all that the district officers have been able to accomplish is to put the young owner in a position in which, by the continuance of strict economy, he can maintain his occupation of his ancestral estate.

34. Another wards' estate was restored after the close of the year under review. It belonged to a pensioned Rissaldár, and was under the Deputy Commissioner's charge during the minority of the Rissaldár's son from 1877. The rental was only Rs. 5,050. A good deal of money has been laid out on the improvement of this little property. In the last year of mangement alone, 10 new wells have been built, partly by the tenantry, partly with estate funds; and the estate now has a rental of Rs. 5,750, and a balance in hand of Rs. 1,200. The young ward has received a sufficient education in the Fyzabad high school.

35. The usual accounts of the civil litigation in which the estates were concerned have been submitted by the officers in charge. It is satisfactory to find a very large reduction in this department of the estates' business.

36. In 1880 the estates were plaintiffs in 247 suits, with a value of Rs. 1,31,900; in 1881 in 159 suits, with a value of Rs. 1,36,260; in 1882 in 95 suits, with a value of Rs. 15,713. In 1880 and 1881 they won 89 per cent. of the cases they instituted; in 1882 only 84. This was solely due to the dismissal of several cases in Gonda on the technical ground that they had been instituted in a wrong court. They have since been successfully prosecuted in a higher court. But for this the ratio of success in the cases instituted would have been very high.

37. There has been a corresponding diminution in the litigation against the estates. In 1880, 299 suits were brought against them of a value of Rs. 1,75,085; in 1881, 158 of a value of Rs. 1,57,823; in 1882, 82 of a value of Rs. 2,20,866. The high value of the suits brought against the estates last year is due to four suits, two in the Pandriganeshpur and two in the Kaithola estate, further reference to which will be found in the separate notes on those estates. In the suits in which the estates were defendants, decrees were given in their favour in 1880 in 56 per cent.; in 1881, 77 per cent.; in 1882, 76 per cent.

38. In 43 appeals presented by or against the estates, they were successful in 32. There were three special appeals in estates' cases, all of which were decided in favour of the estates.

39. These results show on the whole good judgment in the conduct of the law business of the estates, but the most satisfactory part of these statistics is the very great improvement in the adjustment of the estate concerns without resort to the law courts.

40. From the statement which follows it is evident that a great deal of money has been wasted in former years in fruitless litigation. It has been remarked before now that it is as necessary, before the Estates' Officer proceeds to suit, that he should ascertain whether the debtor has means to satisfy the claim, as that the claim is in itself thoroughly just:—

	Due.	Recovered.	Remitted.	*Balances*		
				Recoverable.	Irrecoverable.	Doubtful.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Claims decreed in previous years,	20,162	4,081	1,197	5,442	7,443	1,997
Costs ditto ditto ...	6,820	866	145	1,816	765	3,223
Claims decreed during the year ...	2,922	1,901	...	1,021	...	...
Costs ditto ditto ...	2,692	573	...	1,394	37	687
Total ...	32,596	7,421	1,343	9,673	8,245	5,907

Of the amount on the estates' books for realisation, therefore,—

23 per cent. was recovered.
4 „ „ remitted.
30 „ „ considered recoverable.
25 „ „ reported to be irrecoverable.
18 „ „ returned as doubtful.

In 1880 there was an outstanding balance under decrees of Rs. 1,03,000, of which less than Rs. 13,000 were

realised. In 1881 the matter being under special attention, very large recoveries were made,—no less than 44 per cent. of the amount on the books. It was to be expected, therefore, that the portion of the older debts, which was most easily recovered, having been realised, the figures should not this year be so good. Nevertheless, there is no sufficient explanation of the failure in some of the districts. If a decree cannot be executed from the poverty of the debtor, this should be known and reported; on the other hand, it is an injury to the administration of the estate, when legal proceedings are resorted to and not properly pursued.

41. The percentage of the realisations on the recoverable sum due in each district was :—

District.	Recoverable.	Recovered.
	Rs.	
Lucknow	347	35 per cent.
Bara Banki	2,129	16 „
Sitapur	295	16 „
Hardoi	20	10 „
Kheri	1,000	9 „
Bahraich	1,161	19 „
Gonda	336	16 „
Fyzabad	3,952	78 „
Sultánpur	3,000	63 „
Rae Bareli	3,525	24 „
Partábgarh	1,256	59 „

The collections in Fyzabad, Sultánpur, and Partábgarh were good. In Bara Banki, Sitapur, Bahraich, and Gonda no explanation is offered by the officers in charge,

and the matter must receive their special attention. In Kheri the balance was chiefly due from two debtors, against whom proceedings were in operation. In Rae Bareli this is the only detail of the management which has escaped the close supervision that was in that district given by the Estates' Officer.

42. The administration of the estates under the management of the district officers during the year was on the whole very successful. The seasons were favourable, rent collections were large, all charges punctually paid, and a considerable reduction made in the debts of the estates. In some districts admirable work was done in the improvement of the properties under the charge of the Deputy Commissioners, and generally there was marked advance in the attention given to all details of management. In districts where administration is still deficient, it will be the duty of the officers to address themselves to improvement in the light of the examples that have elsewhere been set them. The services of Messrs. Irwin, Barrow, and Wells merit particular commendation.

43. The charitable trusts, of which a list is given in appendix IX., although only 10 in number, are of considerable value. There are seven in the city of Lucknow, one in Hardoi, and two in the Bahraich district. The receipts in 1882 were, including balance in hand, Rs. 90,296, the expenditure Rs. 70,841, leaving a balance in hand of Rs. 19,455.

44. The receipts are mainly in interest from Government securities. The new charity fund of Lucknow for the relief of the destitute of the city is maintained partly from private subscriptions, partly by a Government grant, and is reported by the Deputy Commissioner to be very fairly administered by the native gentlemen who form the working sub-committee. Not the least valuable of these institutions are the three hospitals founded by the kings, Nasiruddin Haidar and Muhammad Ali Sháh, and by the late Mahárája of Balrámpur. The expenditure on all these

endowments was within the income and in accordance with the trusts.

45. The statement of the educational endowments includes that of the Canning College at Lucknow, the management of which is separately examined by the Director of Public Instruction. The institution has a balance at its credit of nearly Rs. 69,000.

By order, &c.,

J. WOODBURN,

Secy. to Govt., N.-W. P. and Oudh,
in the Oudh Revenue Dept.

APPENDIX A.

LUCKNOW DISTRICT.
Officers in charge, Major Currie and Major Murray, Deputy Commissioners.

No. 1, *Itaunja (wards' estate). Normal income Rs.* 68,180; *on the* 30*th September*, 1882, *credit balance Rs.* 91,300.

This estate had been under the Court of Wards for several years, when Rája Jagmohan Singh attained his majority in 1881. Four months later he died, and the estate again came into the Court of Wards on behalf of his younger brother, Indra Bikrama Singh, who comes of age in 1885. There is a large sum at the credit of the estate, of which the greater portion is invested in loans to other estates, Rs. 20,000 for the present in promissory notes.

The current rental was Rs. 68,179, and there were arrears on the rent-roll amounting to Rs. 23,040. The rent collections were in all Rs. 73,161. The present Deputy Commissioner deferred the submission of any statement of irrecoverable balances till he had himself visited the estate.

The rent collections were very large, but the management of the estates was not efficiently supervised by the District Officer. The collections of miscellaneous income were neglected; a very large number of ejectment notices was unnecessarily issued; and in spite of the definite orders on the last report pointing out the urgent need of wells on this prosperous estate, no more than Rs. 775 was spent on improvements.

The Commissioner rightly describes the management of this estate as most unsatisfactory, but better results are anticipated in the current year.

The year closed with a cash balance of upwards of Rs. 12,000, part of which has been since invested.

The ward is being educated at the Canning College in Lucknow.

BARA BANKI DISTRICT.
Officer in charge, Major Hastings, Deputy Commissioner.

No. 2, Pokhra Ansari (encumbered estate). Normal income Rs. 58,850; *on* 30*th September*, 1882, *deficit Rs.* 66,600.

This was a deeply-embarrassed estate. It was brought under management in 1870, under the Talúqdárs' Relief Act, with a debt of Rs. 1,38,000, which was finally settled for a cash payment by Government of Rs. 1,06,500. The reduction of the debt has proceeded slowly, and was retarded by two years of severe drought. The rent collections of the year, including Rs. 8 025 of arrears, reached Rs. 62,940, and enabled a reduction to be made of Rs. 17,000 in the principal of the debt. The details of miscellaneous income received, as in all the estates of this district, special attention, and except in the matter of improvements, for which the Deputy Commissioner was preparing a systematic scheme, the administration of the estate was careful and excellent. There is now some hope that the estate may be cleared in five or six years.

No. 3, *Rámnagar (encumbered estate). Normal income Rs.* 16,900; *on* 30*th September*, 1882, *deficit Rs.* 55,032.

The estate is one of the most seriously involved of any of those under management. When brought under Act XXIV. of 1870 it had a debt of Rs. 63,705, which was adjusted for a Government loan of Rs. 60,000. The drought, which was felt in most of the estates of this district in 1878 and 1880, was most severe in Rámnagar and Akhaiapur, and arrears of Government revenue accrued, which have prevented for the present any further progress in the satisfaction of the debts on the estate. The rent collections for the year amounted, with arrears, to 104 per cent. on the current rental; but the rent arrears of former years are very large. Nearly two-thirds of a year's rental, Rs. 2,470, have been remitted this year as irrecoverable, and in the circumstances of the tenantry, it is very doubt-

ful whether much of the remainder can ever be recovered. The estate paid its current revenue, and all of the arrears of revenue, which fell due under the suspension orders within the year. The current interest (except Rs. 53) on the Government loan was paid up. The condition of this estate and the means of improving it were the subject of special direction and inquiry this year.

No. 4, *Akhaiapur (encumbered estate). Normal income Rs.* 4,900; *on* 30*th September*, 1882, *deficit Rs.* 9,050.

The same causes have affected this small property as Rámnagar, but its condition is not quite so bad. The debts were Rs. 12,525, but were compromised for Rs. 11,224, and had been reduced to Rs. 9,200, when way was stopped by bad seasons. A small beginning has again been made. The estate is clear of any balances of revenue or interest. The collections, including arrears, came to Rs. 105 per cent. on the current rental. Rs. 434 of the balance was remitted after inquiry and report by the Deputy Commissioner. The administration generally was excellent. The manager will consider whether more may not be effected in the way of improvements.

No. 5, *Jasmandi (encumbered estate). Normal income Rs.* 14,700; *on* 30*th September*, 1882, *deficit Rs.* 14,500.

The debts have been reduced to their present figure from Rs. 43,400, and three or four years more will probably see the estate clear. Rent collections were 105 per cent. on the current rental; the recoveries of income from other sources were good: all demands for revenue, interest, and other charges were satisfied; and a credit made of Rs. 4,800 towards the principal of the Government loan. The only shortcoming in the management, as the Deputy Commissioner admits, was the scant attention to improvements.

No. 6, *Muhammadpur (wards' estate). Normal income Rs.* 18,200; *on* 30*th September*, 1882, *deficit Rs.* 76,500.

The estate has been made over to the ward on his coming of age. An account of the property has been

given in the body of the review. The rents were collected in full.

No. 7, *Togapur Yákubganj (wards' estate). Normal income Rs.* 5,200; *on* 30*th September*, 1882, *deficit Rs.* 54,200.

This small property belonged to Diwán Kishan Kuar of the Punjáb, for the settlement of whose debts a loan of Rs. 60,000 was given by the Government of India. This estate was mortgaged as security for the payment. It is leased, and the whole profit after payment of the revenue goes to the debt. The year under report was the first of management.

No. 8, *Kharka (wards' estate). Normal income Rs.* 24,700; *on* 30*th September*, 1882, *deficit Rs.* 51,700.*

Kharka belongs to an old widow, whose next heir is a child, and was taken charge of, at her instance, in the middle of the year under report. The statements contain, therefore, details only of the rents remaining uncollected when management was assumed. Of these 98 per cent. were collected, land-revenue and other charges were met, and a good beginning was made in putting the affairs of the estate in better order. The debts due were Rs. 48,000 principal, besides arrears of interest. A loan of Rs. 24,500 was obtained at 6 per cent., with which debts, aggregating Rs. 23,360, and bearing interest to the amount of Rs. 3,624 per annum, were paid. The saving in yearly interest charge thus effected was Rs. 2,154. Sanction has since been given to another loan of Rs. 20,000 to pay off the remainder of the debt outstanding at high interest.

DISTRICT SITAPUR.

Officers in charge, Messrs Anderson and Dyson, Deputy Commissioners.

No. 9, *Bamnáwan (wards' estate). Normal income Rs.* 6,600; *on the* 30*th September*, 1882, *credit balance Rs.* 12,700.

The owner is a minor, who will come of age in a couple of years. The estate has been under management

since 1869. Of the balance at credit, Rs. 10,000 are invested in a mortgage on the wards' estate of Deokalia in the same district; but there is a large sum in the Deputy Commissioner's hands for which some suitable investment should soon be found. The collections were 90 per cent. of the rental. The Deputy Commissioner attributes this to the unfavourable outturn at the harvests. In other estates in the same district results were very much better; but it is explained that cash rents are more frequent in Bamnáwan, and the demand does not vary with the season. Revenue and other charges were met, but nothing was done for improvements, and the management was colourless.

No. 10, *Bajchra (wards' estate). Normal income Rs.* 10,100; *on* 30*th September*, 1882, *deficit Rs.* 27,500.

The owner is insane, and the estate has been managed on his behalf since 1869. There was then a debt on it of Rs. 57,400, which has been gradually reduced to less than half; there are now only two creditors, one for Rs. 8,850, the other for Rs. 18,600. Under the terms of the deeds, these mortgages can only be paid off by lump payments in full. A sum of Rs. 7,400 had been accumulated towards the discharge of the former, which, with the surplus of the present year, has enabled one of these mortgages to be redeemed, and reduced the debt to a single sum of Rs. 18,600. The collections were 97 per cent. of the rent for the year. Although the rental demand had not in any way varied, all charges were met, and the surplus for liquidation of debt was Rs. 2,700.

No. 11, *Deokalia, nine-anna share (wards' estate). Normal income Rs.* 11,000; *on* 30*th September*, 1882, *deficit Rs.* 48,000.

The Deokalia property consists of two properties, which were both brought into the Court of Wards, in 1880, on the application of the owners to be declared disqualified. They were very deeply involved. The debts on the nine-anna share came to Rs. 55,500, and the interest was

exorbitant. As a first step towards the reduction of the debt one village was sold for Rs. 8,000, and Rs. 40,000 were borrowed at 7 per cent. from wards' estates in this and the Bahraich district. The surplus funds of the year under report were utilised in paying off the older claims, and at the close of the year the estate owed Rs. 47,998. Of this sum Rs. 2,000 were arrears of interest, and the Deputy Commissioner has not explained why he did not apply part at least of his balance of Rs. 1,430 to the satisfaction of the claim for interest. No action of any sort was taken for bettering the condition of the property.

No. 12, *Deokalia, seven-anna share (wards' estate). Normal income Rs.* 6,900; *on* 30*th September*, 1882, *deficit Rs.* 42,000.

The condition of this share was no less serious than that of the other. The original debts were heavier. They came to Rs. 61,900. Six of the villages had to be sold. They fetched a sum of 20,500. A loan was obtained of Rs. 39,000 in Bahraich at 7 per cent. interest for the settlement of the remainder of the original debt; no further advance has been made by the management, and the present outlook is unsatisfactory. If these estates are to be extricated, they will require very patient and detailed supervision.

DISTRICT HARDOI.

Officer in charge, Mr. Wood, Deputy Commissioner.

No. 13, *Sarwan Baragáon (encumbered estate). Normal income Rs.* 43,000; *on* 30*th September*, 1882, *deficit Rs.* 1,06,000.

The debts of this estate when management was assumed were Rs. 1,50,000. They were compromised for a Government loan of Rs. 1,22,000. Not only, however, was no impression made for some years on this debt, but the estate got into arrears of revenue. In 1881 a first payment was made towards principal with the modest sum of Rs. 777. The estate won a suit for two considerable villages, which were afterwards sold for

Rs. 21,000. Portion of the proceeds have gone to reducing the principal this year, and the debt now stands at Rs. 1,06,000. The rent collections were fair, and all charges for revenue, interest, &c., were cleared, as well as a heavy item of extraordinary personal expenses; but it will take apparently 20 years to adjust the debt. All details were carefully looked into, and except in the matter of the extension of improvements, which is of course no easy matter in a deeply-encumbered estate, the management has been successful.

No. 14, *Asifpur (encumbered estate). Normal income Rs.* 21,700; *on* 30*th September*, 1882, *deficit Rs.* 19,700.

The rent collections were fair: the usual charges were met. There is little, however, to note beyond a methodical management. The debt has been steadily reduced from its original figure of Rs. 52,000, and in a few years this estate should be clear.

No. 15, *Dondpur (encumbered estate). Normal income Rs.* 8,150; *on* 30*th September*, 1882, *deficit Rs.* 3,200.

When management began in this estate, the debts were Rs. 18,280. The rents of the year were collected almost in full; the recoveries in the items of miscellaneous income were admirable; and after payment of all charges there was a surplus of Rs. 1,650 to be credited to the principal of the debt. It is probable that the estate will be discharged of debt in the course of next year. A small share in Bilgrám was purchased for the estate during the year.

No. 16, *Durgaganj (encumbered estate). Normal income Rs.* 7,100; *on* 30*th September*, 1882, *deficit Rs.* 14,000.

The condition of this little property is less satisfactory. The progress in the reduction of the debt is slow. The debts were Rs. 26,200 to start with. The surplus credited against the principal during the year, although, as elsewhere in this district, all sources of income were carefully looked after, was only Rs. 850. An estate like

this can afford little direct expenditure on improvements, but that is no reason why the tenantry should not be encouraged to undertakings which will tend to the security of harvests and rents, as well as to the benefit of the tenants themselves.

No. 17, *Bhagiari (encumbered estate). Normal income Rs.* 10,500; *on* 30*th September,* 1882, *deficit* Rs. 22,400.

Very similar remarks apply to this estate. The debt has been reduced to its present point from Rs. 38,000. The management is careful without being active. The details call for no particular notice. The surplus credited against the principal of the debt was Rs. 2,100. These last two estates cannot be free for eight or nine years.

No. 18, *Bhagaitapur (encumbered estate). Normal income Rs.* 43,000; *on* 30*th September,* 1882, *deficit Rs.* 6,400.

In Bhagaitapur affairs are more prosperous. The debt has come down from Rs. 85,000 to Rs. 6,400. Collections were only moderate, but there was a surplus of Rs. 9,150 for the extinction of debt, and report may now be shortly expected for the release of this estate. It is to be regretted that, notwithstanding these favourable prospects, the Deputy Commissioner did not see his way to doing more for the estate lands.

No. 19, *Mansurgarh (wards' estate). Normal income Rs.* 11,500; *on* 30*th September,* 1882, *credit balance Rs.* 5,740.

This estate came into the Court of Wards in 1872 on the death of the proprietor, leaving a minor son to succeed him. There was then a debt on it of nearly Rs. 15,000. This has been wiped off, and a considerable surplus formed, with which it was intended to purchase lands adjoining the estate; but at the last moment the negotiations fell through, and a convenient investment has still to be found. Collections were good, but expenditure on the estate itself was limited to Rs. 600. The ward

attends the high school of Hardoi, and the Deputy Commissioner gives a favourable report of him. He will come of age in 1889.

No. 20, *Marwán (wards' estate). Normal income Rs.* 13,900; *on* 30*th September*, 1882, *credit balance Rs.* 5,900.

This estate has been in the Court of Wards on behalf of its present minor proprietor since 1877. The debt of Rs. 12,000 with which it came into the Court has been paid off, and there is a considerable surplus, proposals for the investment of which are still awaited from the Deputy Commissioner. If no better arrangement can be come to, it should be invested in promissory notes. Collections were good, and the surplus of the year was nearly Rs. 4,000. There was an outlay of Rs. 450 on wells; but it is not said how many were built, or whether any were made by the tenants on favourable terms granted by the estate. The ward is 15 years of age, and is meanwhile educated under a private tutor, and the Deputy Commissioner reports that his studies are not neglected.

KHERI DISTRICT.
Officer in charge, Mr. H. W. Gibson, Deputy Commissioner.

No. 21, *Bahádurnagar (encumbered estate). Normal income Rs.* 52,100; *on* 30*th September*, 1882, *deficit Rs.* 32,000.

The debts on this estate, Rs. 86,000, were compromised for Rs. 80,000 on a Government loan to that amount being given. The collections were not so good as in the preceding year, being not more than 95 per cent. of the rental as compared with 99. This result is attributed by the Deputy Commissioner to the indifferent outturn of the hewant and rabi harvests, but he himself mentions that half of the balances were in five out of the 55 villages of the estate; that in these the tenants are habitual defaulters; and that measures at law will have to be taken. The reasons for this exceptional default should be carefully examined by the Deputy Commissioner himself, and it is possible that some more lenient process of recovery may be found sufficient. All the usual

demands against the estate were met. Three irrigation wells were sunk at a cost of Rs. 1,100, and four drinking wells for Rs. 272. Grants were made on favourable terms for 43 groves, including the construction of ten wells. Advances were given to tenants to the amount of Rs. 1,000 for the purchase of plough-cattle; and the Behea sugar mill was successfully introduced. From the surplus a reduction of Rs. 6,000 was effected in the debt, and in five years more it may be expected that the estate will be free. The management was creditable. The talúqdár is a minor, and is being educated at the Benares Wards' Institute, but the Deputy Commissioner is disappointed with his progress.

No. 22, *Kusmári (wards' estate). Normal income Rs.* 5,400; *on* 30*th September*, 1882, *credit balance Rs.* 2,090.

Kusmári came into the Court of Wards, in 1878, with a debt of Rs. 31,000, which had to be met by a sale of part of the property. The remainder has now a small balance at its credit, Rs. 1,500 of which are invested in a mortgage on the neighbouring wards' estate of Bansi. When the uninvested balance has reached Rs. 1,000, it will be applied to the purchase of a coparcener's share. The collections were excellent; irrigation wells are not needed, as water lies close to the surface, and rice is the principal crop. No takávi was asked for or given. The heir is a minor, and attends the Lakhimpur high school, but he is now almost 20 years of age, and the estate will apparently be released shortly.

No. 23, *Bansi (wards' estate). Normal income Rs.* 8,500; *on* 30*th September*, 1882, *deficit Rs.* 2,000.

Bansi belongs to the two minor sons of the late Thákur Hardeo Bakhsh. On his death, in 1878, his small estate came into the Court of Wards with a debt of Rs. 5,650. A loan on lighter interest was taken from Kusmári, and the debt has been steadily reduced. The collections of the year were good, all charges were paid, and a surplus of Rs. 1,050 applied to reduction of debt. The property

adjoins Kusmári, and in regard to soil and agriculture resembles it. No improvements were made for the same reasons as in Kusmári. The minors are being educated at the Lakhimpur high school. The elder of the two boys is now 18.

BAHRAICH DISTRICT. Officer in charge, Mr. M. L. Ferrar, Deputy Commissioner.

No. 24, *Rehwa (wards' estate). Normal income Rs.* 73,300; *on* 30*th September*, 1882, *deficit Rs.* 4,100.

On the death, in 1876, of Raghunáth Singh, the head of the ancient clan of Bahraich Raikhwárs, his large estate came into the Court of Wards on behalf of his infant son. It was then heavily involved. The debt was upwards of Rs. 73,000. It has since been steadily reduced, and the estate is now practically clear. The minor is still only nine years of age, and there is a long minority to run. It is proposed to build a good house in Bahraich itself for the residence of the boy and his mother. The rent-collections of the year were by no means up to the mark, and the details, which the Deputy Commissioner has this year given, show heavy and unexplained village balances. It is stated that the bad health of the manager, who eventually died in October last, was the occasion of these shortcomings, but the circumstance should have suggested a more careful supervision by the Deputy Commissioner himself; and as the management had been hitherto excellent, it is sufficient to draw the Deputy Commissioner's attention to the details of the village collections and the items of miscellaneous income, which in the past year were much neglected. Little was done for improvements. The estate lies in low country in the valley of the Gogra, in which irrigation is rarely needed or practised; but now that the debts have been cleared, the Deputy Commissioner promises to commence the construction of drinking wells and other measures for the benefit of the estate property. The establishment of ziladárs is said to be unequal to the proper collection of the rentals in the villages managed direct, and a proposal is made that more of these villages be let out on lease; but the Lieute-

nant-Governor agrees with the Commissioner that it would be preferable to increase the collecting establishment.

No. 25, *Bangaha (wards' estate). Normal income Rs.* 10,000; *on* 30*th September*, 1882, *credit balance Rs.* 1,18,000.

This very flourishing little property was conferred on a Sikh sardár after the mutiny. On his death, in 1876, it came into the Court of Wards with a credit balance of Rs. 42,000, which has in the interim been nearly trebled. The ward is now a young man of 20, and well educated, and the estate will presently be made over to him. It has been throughout leased to his mother, who has managed it excellently, and paid the rents with punctuality. The only balance of the year under report was due to diluvion, and has since been remitted. It was proposed to release the estate last year, provided the ward's uncles would compromise a claim they had raised for a share in the family house property; but they refused very liberal offers, and it was decided to retain the estate till the litigation had been disposed of. The expenditure on improvements had been very meagre, but at the date of report four large masonry wells were under construction, and the Deputy Commissioner had undertaken to spend Rs. 2,000 in the current year on drinking wells and other sanitary purposes. A sum of Rs. 1,01,500 has been invested for the ward in land mortgages, of which a large portion is on the Deokalia estate in Sitapur.

No. 26, *Mírabad (wards' estate). Normal income Rs.* 5,000; *on* 30*th September*, 1882, *credit balance Rs.* 3,700.

This estate has been 10 years in the Court of Wards. The minor is now 14 years of age, and has been taught regularly at the district school. There was a small debt on it originally of Rs. 1,700, but this has been paid off, and there is now a small surplus, the most of which has been suitably invested. The rent collections were poor. All the villages with one exception were leased, and it

appears that four-fifths of the entire balance were due from one leased village alone. No explanation of this is given, and this is a further instance of the insufficient attention given to the details of the estates' management in this district. A large expenditure was incurred in law expenses, and a sum of Rs. 1,800 was paid on a suit brought by the step-mother of the ward. Eight notices of ejectment were issued in this small estate, of which no fewer than four were cancelled on the tenants' objection. A small sum of Rs. 300 was entered in the budget for improvements, and as the Deputy Commissioner remarks, the estate was solvent, and could afford it; only Rs. 186, however, were spent.

No. 27, *Nikáhi (wards' estate). Normal income* **Rs.** 1,300; *on* 30*th September*, 1882, *deficit Rs.* 2,700.

This estate consists of a single village, heavily in debt, which is being liquidated slowly. In eight years the debt has been reduced from Rs. 5,250 to its present amount. The ward is now 18 years of age; but as the annual surplus is not more than Rs. 400, the estate can scarcely be clear of debt by the time he comes of age. He attends the Bahraich high school. The year's rental was collected in full.

GONDA DISTRICT. Officers in charge, Major Forbes and Mr. J. White, Deputy Commissioners.

No. 28, *Biláspur (wards' estate). Normal income Rs.* 71,500; *on* 30*th September*, 1882, *credit balance Rs.* 35,400.

This estate, which is more generally known as Utraula, has been held with varying fortunes by a Pathán family from the time of Akbar. On the death of the last talúqdár, Rája Umráo Ali Khán, soon after the mutiny, it was taken into the Court of Wards. A posthumous son was born, who is now 18 years of age, and the estate will shortly be made over to his charge. It was not cleared of debt till 1877; since then it has been making rapid accumulations at the rate of Rs. 12,000 a year, except in the year of the Rája's marriage. During the last year

Rs. 23,000 were spent in the purchase of grants adjoining the estate, and there is still a large sum for investment; of this Rs. 24,000 have since been lent to the neighbouring estate of Páska. The profit on the grants purchased has during the first year been 3¼ per cent. on the capital, and the investment promises to be an advantageous one. The collections, as well of rent as of income from other sources, were excellent. The Commissioner mentions that rent-rates throughout the estate are known to be very moderate, and this in some measure accounts for the punctuality with which they are habitually realised. It is satisfactory to find that in this large estate but three notices of ejectment were issued, of which but one was contested, and that unsuccessfully. The Deputy Commissioner seems to consider that the manager, while an excellent rent collector, fails in the matter of developing improvements; but it should not have been difficult to expend profitably the budget allotment which, after all, was only Rs. 2,000. Only 13 wells were constructed against 36 in the previous year. The same success has not attended the efforts made to induce tenants to sink wells in their holdings as has been experienced in the neighbouring district. Only one instance is given of well construction by a tenant, and unless this is explained by a lack of interest in the matter on the manager's part, it will probably be necessary to make the terms more liberal than have hitherto been offered. In an estate such as this is described to be, there can be no want of capital among the tenantry.

The present Deputy Commissioner had still, when his report was submitted, to make a personal acquaintance with the villages of the estate, and in the absence of any need for irrigation wells, he expressed himself as in some difficulty as to the best means of improving them. He sketched, however, a number of useful projects, to some of which he has addressed himself. The largest of these was a share in the metalling of the road between Utraula and Nawábganj, as to which a point has been raised by the Commissioner, which must be discussed separately.

Meanwhile, in the opening and improvement of village roads, the construction of wells of sorts, and of a dispensary, the repairs of the buildings belonging to the family, there will probably be found sufficient field for useful outlay.

The young Rája has for some time been under the care of his father-in-law, the Rája of Nánpára, one of the most intelligent and public-spirited of the Oudh talúqdárs, and the Deputy Commissioner considers that this arrangement was a wise and beneficial one.

No. 29, *Páska (wards' estate). Normal income Rs.* 35,000; *on the* 30*th September*, 1882, *deficit Rs.* 26,600.

This estate is held by the Court of Wards for Thákurain Iklas Kuwar, the widow of the last of the Kalhans Thákurs of Páska. When received, in 1877, it was very deeply embarrassed. A debt of Rs. 1,41,000 was only relieved by a sale of a considerable part of the estate, already heavily mortgaged. In the remainder by the substitution, as opportunity offered, of loans at lighter interest, much progress has been made, and the debt was reduced between 1878 and 1882 from Rs. 47,800 to Rs. 26,600. In the current year the last of the original debts, due to the Birwa estate at 8 per cent., has been met by a loan from Utraula at 6 per cent., and there are hopes now of the estate being free of debt in three or four years.

The collections were 90 per cent. of the year's rental; but the estate suffered from diluvion and damage to the kharíf crops from flood, and considerable rent remissions have been required. The estate is not an easy one to manage, and the Commissioner's recommendation, that the new manager be given the hope of an increase of pay if he develops the resources of the property, will be considered.

Five wells were constructed by the tenants at their own cost: in four instances on the grant of small plots

of land for groves, in one by a lease for seven years. This is a beginning to be encouraged. A lease for seven years appears somewhat inadequate, and the Deputy Commissioner might well offer more liberal terms.

All charges were met, and a surplus of Rs. 3,500 set against the principal of the debt.

FYZABAD DISTRICT.
Officer in charge, Captain Barrow, Assistant Commissioner.

No. 30, *Khapradih (encumbered estate). Normal income Rs.* 70,000; *on* 30*th September*, 1882, *deficit Rs.* 30,500.

There was no estate under the management of the District Officers in Oudh, the condition of which at one time appeared worse than this. It was the property of a Garagbansi chief, and was rather an aggregate of clansmen's villages than an estate in the ordinary sense of the term. It was taken by Sir Charles Wingfield, in his instructions for the assessment of the province, as a typical instance of the lowest form of association between Rájput clansmen and their chief. The talúqdár was described as *primus inter pares*, and on the settlement of the estate the majority of the villages were decreed to the clansmen in a sub-settlement, which gave to the superior only a moderate allowance in addition to the Government revenue. For that revenue, however, he was responsible, and when the under-proprietorrs failed in their payments, the revenue had to be met by loans, which yearly accumulated. When the Thákur availed himself, in 1871, of the provisions of the Talúqdárs' Relief Act, his debts amounted to upwards of Rs. 42,000, and the amount of the dues for arrear rents that were not barred by limitation to Rs. 52,000. The revenue due on the estate was Rs. 49,400 (afterwards reduced to Rs. 46,000), and the current rental was only Rs. 62,400. Under the earlier management matters went from bad to worse. By 1875 not only had the debt not been reduced, but the debt to private creditors had grown from Rs. 40,000 to Rs. 49,000, and the estate was in

debt to Government for arrears of revenue to the extent of nearly Rs. 36,000. The following table gives some idea of the condition of the estate at that time, and of the remarkable change for the better that has now occurred in its prospects:—

Year.	*Rent-demands.*		*Collections.*		Total rent balances.	*Debt due.*		*Remissions made.*	
	For current rent.	For arrears of rent.	For current rent.	For arrears of rent.		Arrears of revenue.	Estate debts.	To tenants of rent.	To estate of revenue.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1875,	62,355	39,738	40,500	2,553	58,166	35,701	48,992	550	16,914
1876,	64,987	59,131	49,042	4,141	58,863	38,775	38,093	5,251	43
1877,	64,497	56,583	56,188	11,990	52,770	26,398	37,262	1,280	614
1878,	63,751	46,232	46,493	3,953	59,537	30,880	38,700	6,538	2,074
1879,	64,080	49,656	56,213	8,587	48,851	23,927	39,599	9,881	56
1880,	65,038	47,890	59,914	13,374	39,611	10,363	35,995	1,003	5,214
1881,	67,654	36,537	58,719	11,026	33,559	1,500	35,995	3,074	...
1882,	70,182	29,206	63,290	19,010	16,214	...	30,500	4,352	...

It was not till 1879, with the exception of one year of energetic management in 1877 by Major Hastings, that the rent collections, current and arrear, could be brought approximately to the amount of the yearly rental. Since then, under the firm and patient administration of the Estates' Officers, Messrs. Boys and Barrow, the position of the estate has been completely changed. Large remissions of rent balances have been made, but large realisations also, and the sub-proprietary tenantry settled in a punctual payment of their rents. The rental of the estate has been considerably improved. The whole of the very heavy arrears of land-revenue have been cleared off, and a commencement made in the reduction of the debt, which there is now every reason to anticipate will be completely liquidated within five or six years. The Commissioner writes:—"I consider Captain Barrow entitled to much credit for the manner in which he has conducted the management of these estates, and I may add that, when I left this division two years ago, I scarcely believed it possible that the Khapradih estate could

within that period have paid up all its arrears of revenue with current interest on the Government loan, not to speak of the payment of nearly Rs. 5,500 towards reduction of the Government debt."

This satisfactory result, says the Deputy Commissioner, could not have been obtained if the under-proprietors and tenantry severally had not come at last to a thoroughly good understanding with the Estates' Officer. They all know now that it is useless to resist the payment of the estate's just dues, and they also are equally well assured that their rents will not be raised capriciously.

The statement given above is sufficient evidence of the success of the management, and there is only one part of it which needs further mention. As regards improvements, the Commissioner reports :—" I am glad to find that in Fyzabad the full budget allotment for improvements has been expended, and would note as very satisfactory that besides the three wells constructed by tenants who received takávi advances, 12 other wells were constructed by tenants, and three by the estate, during the year. There can be no doubt that the concession held out to tenants by the grant of a small plot of land for a grove has had a great effect in inducing them to construct wells. No less than nine of the 15 constructed by tenants this year were sunk by granting this concession, and I agree with Captain Barrow that it is a pity that, under the recent orders of Government, it will no longer be possible to hold out this inducement to tenants in the Khapradih estate. Had the estate a considerable surplus, it would not so much matter ; the construction of wells might then be undertaken by the Estates' Officer; and it is just in the case of estates encumbered with debt that there is the greatest necessity of holding out whatever is the most efficacious inducement to secure the construction of wells by the tenants themselves."

The reference is to a ruling of the Government of India that an estate cannot be held both under the Talúq-

dárs' Relief Act, and in the Court of Wards under the Land Revenue Act. The latter gives the District Officer more extensive powers, and he can make perpetual assignments, for example, for a grove, which are possible under the Talúqdárs' Relief Act, only with the permission of the owner and his next-of-kin. It is to be regretted that the very successful development of irrigation in this estate has been thus checked; but so much has been done both in Fyzabad and Rae Bareli by terms of a different sort, that the Lieutenant-Governor believes the hindrance will be only temporary.

The present talúqdár of Khapradih is a minor. Throughout the year, with the exception of short visits to his house, he has been kept at Fyzabad. He attends school regularly, and has begun the study of English.

Part of the Khapradih estate is situate in Sultánpur, and is managed by the Estates' Officer of that district. Similarly, portions of Kurwár and Gangeo, situate in Fyzabad, were under the management of Captain Barrow. The rental of his charge, irrespective of attached estates (and two of these were considerable), was Rs. 94,000. In this area there were completed within the year 44 wells: 38 by the tenantry, six by the estates—a result creditable to the administration of the Estates' Officer.

No. 31, *Majnai (wards' estate). Normal income Rs.* 5,750; *on* 30*th September*, 1882, *credit balance Rs.* 1,200.

A sufficient account of this small property, now released, has been given in the body of the review.

SULTÁNPUR DISTRICT. Officer in charge, Mr. W. F. Wells, Assistant Commissioner.

No. 32, *Kurwár (encumbered estate). Normal income Rs.* 1,07,000; *on* 30*th September*, 1882, *deficit Rs.* 1,49,000.

The Rája of Kurwár is head of the great clan of Bachgotis in Eastern Oudh. The last Rája died some

years ago, leaving no male heir. His widow has lately adopted a son. Before his death his estate, deeply embarrassed, had been placed under the Talúqdárs' Relief Act under circumstances which gave very distant hope of its extrication. It comprised a number of sub-settlements, in which the same difficulties were experienced as in Khapradih, and the debt on the estate was so large, that its adjustment would have been a work of many years even had the facilities of management been greater. Including interest, it was determined at the sum of Rs. 2,34,000. Subsequently, the claims of the creditors were compromised in 1877 for a sum of Rs. 1,93,000 advanced by Government. Till then the estate had just been able to pay its way, the ordinary charges, and the interest on its debt. It had then a rental of Rs. 95,090, and dues of arrear rents, amounting to Rs. 70,600. In the six years that have since intervened, the management and prospects of the estate have been greatly improved. The current rental has been more punctually collected, and recovery has been made of some portion of the arrears. Remissions of these last have been made to the extent of Rs. 43,300; and the arrear balance now on the roll is only Rs. 16,220. The debt has been reduced at the rate of Rs. 8,000 to Rs. 10,000 a year; in the year under report by Rs. 16,600; and it now stands at Rs. 1,49,000. The tenantry of the estate are in an unusual proportion of the higher castes; nevertheless, the habit of default is confined to a few well-known villages, in which Mr. Wells, by personal dealings with the tenants, has effected excellent improvement.

Rent collections were admirable, and all details of management have received careful attention. The estate is situate partly in Sultánpur, partly in Fyzabad. In the Sultánpur portion, which comprises about two-thirds of the estate, much has been done in this estate in the adjustment of under-proprietary debts on the lines suggested in last year's review, by settling the shares of each of the coparceners in the general debt. When settlement can be

made by transfer of shares, the coparceners who lead the community into difficulty are weeded out, and the tenure given a fresh start, with better hopes of success. When these measures fail, and a sub-settlement has to be bought in for the estate, the sír lands for the support of the disestablished sub-proprietors are fixed with the approval of Government. There may be cases, however, in which, in spite of the examinations which have been made, the under-proprietary debt cannot be attributed to deliberate default; and in the instance of Partábpur, mentioned by Mr. Wells, the Deputy Commissioner should take measures to satisfy himself whether the assessment is equitable.

No. 33, *Gangeo (encumbered estate). Normal rental Rs.* 23,000; *on* 30*th September*, 1882, *deficit Rs.* 3,000.

The rent collections were excellent, and the management all round good. A payment of Rs. 4,000 was made towards the debt; and the debt, which was originally upwards of Rs. 25,000, will be paid off in the current year, and the estate discharged. The talúqdár, the son of the bluff old yeoman, at whose instance the estate was brought under the Encumbered Estates Act, has been for the last two years entrusted with a considerable share in the management, and shows good business capacity.

No. 34, *Mahona (encumbered estate). Normal rental Rs.* 45,000; *on* 30*th September*, 1882, *deficit Rs.* 86,700.

This is one of the estates which is most seriously embarrassed. When taken under the Talúqdárs' Relief Act the debts amounted to Rs. 1,32,360, and the interest charge was so heavy, that no sensible progress was made till the debts were compounded for a loan from Government of Rs. 1,15,500. Since then reduction has proceeded, except in the disastrous season of 1878, at the rate of Rs. 5,000 or Rs. 6,000 per annum. During the last year the reduction effected was Rs. 10,000; but it must still be many years before the estate can be discharged.

As may be gathered from the amount of the debt-payments, the rent collections were remarkably good. The balances were carefully examined: the good harvests enabled a recovery of Rs. 5,000 to be made, and details were furnished of items aggregating nearly Rs. 9,000, which, on the recommendation of the Commissioner, have since been remitted.

The Estates' Officer describes Mahona as the most troublesome estate in the district. The people are poor, arrears heavy, water scarce, and fraud, trickery, and intrigue more rampant than anywhere else. Very liberal remissions of rent have been given; the establishment has been strengthened; and steps taken to counteract the influence which was brought to bear against the management by the former servants of the estate.

No. 35, *Jamu (encumbered estate). Normal income Rs.* 30,600; *on* 30*th September*, 1882, *deficit Rs.* 15,000.

Rent collections, including arrears, were 105 per cent. of the annual rental, and a surplus obtained towards the debt of Rs. 9,000. The estate will be free next year. Two wells were built by the estate, and a water-course, a mile long, made from the Masiawán Tál, which will be of great benefit to the estate. The work done in the year was very creditable, and the manager has received deserved promotion.

No. 36, *Partábpur (encumbered estate). Normal income Rs.* 12,200; *on* 30*th September*, 1882, *deficit Rs.* 18,700.

In this estate there were three coparceners, the adjustment of whose shares in the common debt and in the common property by partition has been a very protracted and difficult business. It has been at last finished. On its completion after the close of the year under report, two of the three coparceners paid off their shares of the debt, and took possession of their shares of the property. The third share is still under management, with an income

of Rs. 6,600, and a debt of Rs. 13,800, which the Deputy Commissioner anticipates it will take 12 years to clear.

The collections in the joint estate during the year under report were good; nothing was done for improvement pending the settlement of the partition; and the only feature of the management which suggests remark is the very large number of ejectment notices issued in this estate. The proceedings in the partition had shown a great inequality of rentals; and in order to the adjustments required for the division, 148 notices were issued; but the Estates' Officer is satisfied that the enhancements were fair, and have produced a more level incidence.

No. 37, *Bhadayan (wards' estate). Normal income Rs.* 29,600; *on* 30*th September*, 1882, *deficit Rs.* 30,600.

This estate was taken over in 1881 on the succession of the present owner, a boy of 14. It was heavily indebted, but fair progress is being made in the liquidation. The debts have been reduced from Rs. 47,000 to Rs. 30,600, and Bhadayan should be a fine property by the time it is handed over.

Collections were good in all items of income, but practically nothing was done in the way of improvements.

No. 38, *Páli (wards' estate). Normal income Rs.* 16,300; *on* 30*th September*, 1882, *credit balance Rs.* 7,200.

This little estate has been in the Court of Wards since 1875. The debt with which it entered has been cleared off, and there is a surplus, of which only half has as yet been invested. The proper utilisation of the remainder is under the Deputy Commissioner's consideration. The employment of part at least in the improvement of the property is most desirable.

Collections were very good, and the arrears list has received a thorough sifting, which has resulted in a carefully detailed proposal for the remission of Rs. 1,715.

The ward is 15 years old. He is reported to be a fine young lad, whose further education, however, is a difficult problem.

No. 39, *Unchgáon (wards' estate). Normal income Rs.* 13,000; *on* 30*th September,* 1882, *credit balance Rs.* 18,500.

Very similar remarks apply to this estate. During the minority of the present owner a handsome balance has been gathered together, the greater portion of which has been advantageously invested; the collections of the year were good; and all the details of management were carefully attended to, with the single exception of the very necessary matter of estate improvement. This, it is trusted, will now receive the special attention of the officer in charge.

The ward attends school, and his progress is very favourably reported on. The estate will be under charge for seven years yet.

No. 40, *Walipur (wards' estate). Normal income Rs.* 6,800; *on the* 30*th September,* 1882, *credit balance Rs.* 12,800.

This small estate came under management in 1878 in the very exceptional position of being entirely free of debt. It is an off-shoot from the great Bachgoti house of Karwár, and the child, who is now the owner of Walipur, has been adopted by the Ráni of Karwár to succeed as head of that ancient family.

Collections, as throughout this district, were very good; balances of former years are low; the greater portion of the surplus is in a mortgage on the estate of Bhadaiyan: the improvement of the estate itself demands more attention.

Rae Bareli District.
Officers in charge, Messrs. Blennerhassett and G. R. Irwin, Assistant Commissioners.

No. 41, *Kurri Sadauli (encumbered estate). Normal income Rs.* 61,400; *on* 30*th September,* 1882, *deficit Rs.* 85,000.

The debt on this estate, when it came under charge, was Rs. 1,51,000, and

the interest charge so heavy, that no impression could be made on it, until a compromise was made with the creditors, in 1877, for an advance by Government of Rs. 1,25,000 at five per cent. By 1880 this was reduced to Rs. 85,000, but at that point matters have since stood.

The estate suffered severely from drought in that year; in 1880-81 the rent collections were only Rs. 46,450, and arrears of revenue accrued, which the funds, in spite of the admirable collections of the following year, were unable to do more than clear.

The rent collections, including arrears, were 107½ per cent. of the annual rental, and in all departments the management was methodical and successful. A sum of Rs. 3,405 was spent in advances to the tenantry, mainly in aid of well-building. Twenty-one wells were made with money assistance from the estate, and another in consideration of an allotment of land for a grove. The recovery of outstanding advances was excellent.

The ward, who is now 18 years of age, is being educated at the Aligarh College, from which a satisfactory account of his progress has been received.

Special expenditure was incurred in the marriage of his sister, but it may be hoped that in eight or ten years this fine estate will be free of debt.

A sum of Rs. 3,183 was spent in buying or taking on mortgage the shares of various under-proprietors who had become so deeply indebted to the estate that there was no other means of meeting its claims. No harshness was used to force them to agree to this mode of settlement. When there was any reasonable chance of saving their rights, they were given time, and they had the advantage in a settlement with the estate of having occupancy rights reserved in the lands of their personal cultivation.

No. 42, *Bahua (encumbered estate). Normal income Rs.* 20,800; *on* 30*th September*, 1882, *deficit* Rs. 68,000.

The debt is very heavy, and the estate has been very unfortunate. It contains a large area of rice-lands, and

in the droughts of 1878 and 1880 it suffered very severely. The debts, originally upwards of Rs. 1,00,000, had been compromised in 1877 for Rs. 70,380, advanced by Government; but in the bad years which followed, the Estates' Officer was only able to pay the current interest on the loan by getting into arrears of revenue. These have now been paid off, but no sensible impression has yet been made on the debt with which the property is burdened. Rent balances, amounting to nearly Rs. 3,000, had to be remitted last year as irrecoverable, and the collections were not so high as in most of the other estates of this district. At the same time an energetic effort was made for the improvement of the estate. During the last two years a sum of no less than Rs. 13,240 has been spent on improvements, of which Rs. 4,100 were obtained from Government under the takávi rules. Rs. 9,500 were expended in advances to the tenantry for wells, for seed, and for cattle. In the year under report 32 wells and two dams were completed; and if the estate has only a series of better seasons, there are reasonable hopes of a slow liquidation of the debt. The effect of all these improvements on the rental will only, it is said, be first seen in the current year.

The takávi collections were very good; there were no abnormal expenses. The affairs of the estates received the special attention they required, and the management all round was all that could be desired.

No. 43, *Amawan, Abdul Hakim Khán (encumbered estate). Normal income Rs.* 17,000; *on* 30*th September,* 1882, *deficit Rs.* 10,600.

The estate suffered with its neighbours in the successive droughts which have affected the northern half of this district, and there were revenue arrears, which were a first charge on the surplus. The year under report was a very successful one. Rent came readily in. The revenue arrears, Rs. 2,732, were all paid off, and Rs. 1,374 credited to the principal of the debt. If favour-

able seasons continue, the remainder of the debt should be discharged in three years more. Rent remissions to the extent of nearly Rs. 3,000 were given to the tenantry for balances of the years of drought. Thirteen new wells were constructed during the year, at a cost in advances of Rs. 1,113.

The present owner is a minor, attending the Muhammadan College at Aligarh, from the Principal of which a satisfactory report of his progress has been received.

No. 44, *Amawan, Muhammad Zaman Khán (encumbered estate). Normal income Rs.* 10,700; *on* 30*th September,* 1882, *deficit Rs.* 26,020.

The Amawán estate belonged to two brothers, by whom it was divided. Both were at the time of the passing of the Talúqdárs' Relief Act heavily indebted. Both properties were put under the Act. The debt on the elder brother's share was found to be nearly Rs. 28,000, the younger's Rs. 88,000. The younger brother is now represented by his son, Muhammad Zaman Khán. With his approval about a third of the estate was sold in 1879, the terms secured were very advantageous, and the larger portion of the debt paid off.

The property remaining to the talúqdár shared in all the misfortunes of its neighbours, and the good season of 1882 and the large recoveries of rent which attended it have only enabled it to clear itself of the revenue arrears that accrued.

Eight wells were completed, at a cost of Rs. 574 in advances; rent balances were examined, and Rs. 1,080 remitted; the management generally was excellent.

No. 45, *Azízabad (encumbered estate). Normal income Rs.* 17,600; *on* 30*th September,* 1882, *deficit Rs.* 8,400.

Azízabad is fortunate in being in a part of Rae Bareli which has never suffered from a deficient rainfall; the tenantry are prosperous; and its progress under manage-

ment has been uniform. There are hardly any rent arrears; the rents of the past year were collected in full, and upwards of Rs. 5,000 paid towards the debt. It is anticipated that the small balance, which will remain at the close of the present year, will be paid by the talúqdár, and the estate will then be restored to him.

No. 46, *Khajuri (encumbered estate). Normal income Rs.* 7,000; *on* 30*th September*, 1882, *deficit Rs.* 8,300.

The debts on this small property were originally Rs. 18,500. The surplus of the last year paid towards it was Rs. 3,170. Three years will free it of debt. The present owner is a minor, 20 years old, and heir to the large estate of Gaura, which is also in the Court of Wards.

Collections in every item of income, assisted by an exceptional crop of poppy, were remarkably good. The details of the management do not call for notice. One well was built at a cost of Rs. 150.

No. 47, *Korihar Sataon (wards' estate). Normal income Rs.* 77,000; *on* 30*th September*, 1882, *deficit Rs.* 40,000.

The young owner of this estate is head of one of the great houses of Baiswara. His property is a fine one, which has long been disencumbered. The debt is a nominal one. When the estate of Major Orr came into the market in 1880, containing villages which under his management had become the most prosperous in the district, several of these were bought for the ward of Korihar. The purchase-money came to Rs. 77,000, and an arrangement was made for its payment by instalments. The payments effected during the year under report were Rs. 30,000, and the greater part of the balance will be adjusted in the current year.

The rent collections, including arrears, reached the very high figure of 112 per cent. on the current rental. Nineteen wells were built during the year, partly with

advances, partly on allotments of grove-land. The estate supports a dispensary at an annual cost of Rs. 960.

The ward is being educated at the Aligarh College, and is progressing satisfactorily. The estate will be made over to him in 1888, and it is desirable that before that time he should receive from the Deputy Commissioner some practical instruction in its management, and that the opportunity should be taken to provide him with the equipments that are customary in his position.

No. 48, *Bela Bhela (wards' estate). Normal income Rs.* 31,000; *on* 30*th September,* 1882, *credit balance Rs.* 3,400.

This is also a flourishing property. It came into the Court of Wards without debt, but in the course of a long minority, funds have accumulated, with which additions have been made. The rent-roll has accordingly increased from Rs. 22,000 to Rs. 31,000, and there is still a small balance, the investment of which is under consideration. The ward is now 19. He has received an excellent education in the Rae Bareli high school.

Rent collections were here again very high: 109 per cent. on the current rental. Nine wells were made, with advances amounting to Rs. 540.

No. 49, *Bhiragobindpur (wards' estate). Normal income Rs.* 48,300; *on* 30*th September,* 1882, *deficit Rs.* 1,93,000.

This property belongs to the uncles of Sardár Naráyan Singh, the ward in Bela Bhela. At their instance it was taken into the Court of Wards in 1878, and the Government of India advanced a sum of Rs. 2,25,000 for the payment of their debts on the security of their estate. The liquidation of the debt has been retarded by the share of the estate in the harvest losses of the two seasons that have been so detrimental to the prosperity of this district, and in four years the principal of the debt has been reduced by only Rs. 32,000.

The estate is under the management of one of the brothers, Sardár Autár Singh, whose services were specially acknowledged in the last review of the management of the wards' estates. The collections reached the high point of 110 per cent. on the current rental, and enabled not only the adjustment of the outstanding arrears of revenue, Rs. 3,300, but, after satisfaction of the interest charges, of a payment of Rs. 14,000 towards the principal of the debt.

In all, seven wells were made, three of them with cash advances, amounting to Rs. 506, and a sum of Rs. 1,590 advanced to the tenantry for assistance in cattle and seed.

No. 50, *Shankarpur (wards' estate). Normal income Rs.* 41,300; *on* 30*th September*, 1882, *credit balance Rs.* 7,500.

Shankarpur came under management in 1878 for its present minor owner free of debt, and indeed with a considerable balance to the good. The whole of the accumulations, Rs. 14,500, were invested in 1881 in the purchase of land, and the Estates' Officer has submitted proposals for the investment of the surplus of 1882. An estate dispensary has been supported at the desire of the late owner at a cost of Rs. 2,660. The tenantry are well-to-do, and can afford to make wells without assistance. Sixteen wells were made: 10 for grove-lands, six in return for special leases. Collections were good.

No. 51, *Pandriganeshpur (wards' estate). Normal income Rs.* 58,200; *on* 30*th September*, 1882, *deficit Rs.* 3,23,600.

This estate was brought into the Court of Wards in 1878. It belongs to Sháhzáda Shadeo Singh, of the family of Ranjít Singh of the Punjáb. The debts were settled for a loan from Government of three and-a-half lakhs. The estate suffered, like others in Rae Bareli, and the results of four years' management have been the

reduction of the debt by about a quarter of a lakh. The credit to the principal of the Government loan during the past year was Rs. 5,070; but arrears of revenue to the extent of Rs. 3,330 had to be met, and the estate was engaged in a law-suit of vital importance, which has been taken to the Privy Council, and its law expenses for the year came to Rs. 4,000.

When the loan was made, it was estimated that a sum of Rs. 7,000 per annum would be available for adjustment of the principal of the loan, although it was hoped that the surplus might be considerably in excess. These anticipations have scarcely been fulfilled, but the seasons have been most unfavourable. The resources of the estate require careful husbanding.

The collections of the year were 105 per cent. on the current rental; Rs. 3,700 were remitted on a careful examination of the rent balances. Twenty-four wells were made by the tenants, 19 of them on advances amounting to Rs. 2,308; the rental was increased during the year by Rs. 1,000.

No. 52, *Binhora (wards' estate). Normal income Rs.* 12,700; *on* 30*th September*, 1882, *deficit Rs.* 30,000.

This estate was under the Talúqdárs' Relief Act for 10 years, during which a debt of upwards of Rs. 23,000 was wiped out. It is now in the Court of Wards on behalf of the late owner's widow with a fresh debt, which at the beginning was Rs. 40,000.

The rent collections were extremely good, and considering the size of the estate a great deal was done in the way of improvements. Eleven wells were constructed at a cost of Rs. 1,094 in advances, and a dam.

A loan was effected in the Punjáb at light interest, and no less than Rs. 8,600 remitted by the creditors in consideration of immediate payment. The result was to leave on the estate a balance of debt under Rs. 30,000.

No. 53, *Gaura (wards' estate). Normal income Rs.* 76,300; *on* 30*th September*, 1882, *deficit Rs.* 62,800.

The debt on this estate, which is one of the oldest Bais properties in the district, and came into the Court of Wards in the preceding year, was settled during the year under report by a loan given by the Mandi estate in the Punjáb. A small sum in interest was remitted by the creditors, and by the end of the year a payment of Rs. 15,000 effected towards the principal. The Deputy Commissioner anticipates that the estate will be cleared in about four years.

Collections were good, and the estate has done remarkably well in the way of improvements. Not only has the whole amount of the recoverable advances been realised, but no less than 39 new wells have been made. The cash advances were Rs. 3,505.

No. 54, *Udhrehra (wards' estate). Normal income Rs.* 36,500; *on* 30*th September*, 1882, *deficit Rs.* 73,800.

The estate was put into the Court of Wards last year on the owner, Thákur Bhagwán Bakhsh, declaring himself incompetent to manage. It came into the Court after a bad season and very heavily in arrears, and considering the circumstances the management has been creditable. The rent arrears on the roll were two-thirds of a year's rental. The rents of the year were collected in full, and the details of the arrears are under examination by the Estates' Officer.

The debts were settled by a loan at lower interest procured from one of the wards' estates in the Punjáb; the original creditors were paid off, and a surplus of Rs. 8,000 was in hand to meet the first instalment on the new loan due in December.

Five new wells were made, and Rs. 220 given in takáwi.

No. 55, *Sehgon Pachhimgáon (wards' estate). Normal income Rs.* 7,850; *on* 30*th September*, 1882, *deficit Rs.* 12,500.

This estate was taken under charge of the Court last year under similar circumstances to those of Udhrehra. The management, however, has been very difficult from the obstructiveness shown by the proprietor, and directly certain adjustments are made, it will be for consideration whether he shall not be required to resume the management of his property. The collections were the least successful in this circle; the tenantry are stated to be very impoverished; and considerable advances had to be made for seed and cattle to maintain the cultivation. One well was made on condition of a grant of grove-land.

A loan of Rs. 2,000 was taken from the Shankarpur estate to meet claims that were pressed, and the annual surplus for payment of debts does not promise to be more than Rs. 1,800.

No. 56, *Bodhanpur (wards' estate). Normal income Rs.* 2,150; *on* 30*th September*, 1882, *credit balance Rs.* 40.

This tiny estate was taken into the Court of Wards last year. The collections in it were remarkable. They amounted, including arrears, to 116 per cent. on the current rental. The tenantry are described as well-to-do and well-disposed. The whole of the debt, only Rs. 800 in all, was paid off, and the estate started the current year with a small balance to its credit. No wells were made, and the only advances were Rs. 26 to a cultivator to buy bullocks.

No. 57, *Ladhwári (wards' estate). Normal income Rs.* 17,500; *on* 30*th September*, 1882, *deficit Rs.* 37,500.

This estate is the property of Mian Uttam Singh, Diwán of Mandi in the Punjáb, and was, at his instance and in consideration of his services, taken into the Court of Wards during the past year. It was only under management for about six months, and the sum shown

in the tables as the rent demand is that part of the year's rental which was uncollected when the estate was received. This was about four-fifths of the total rent-roll, and that it should have been collected nearly in full is creditable to the sarbarakár.

The estate, it is reported, needs hardly a single well. It is magnificently furnished with wells already. Advances for seed-grain and bullocks were made, when necessary. They came to Rs. 318. It is stated that the tenantry, though apparently so prosperous, had made a strong combination against the landlord. His agent was so thoroughly cowed, that he hardly ever ventured into a village. Their attitude to the Court of Wards has been perfectly friendly.

Nearly the whole of the debt on Ladhwári is for part of the purchase-money of the estate, which Major Orr allowed to remain on mortgage. A payment of nearly Rs. 10,000 was made towards the principal, in addition to the current interest, and a small balance left towards the next instalment due.

PARTÁBGARH DISTRICT. Officer in charge, Major Grigg, Deputy Commissioner.

No. 58, *Kaithola (encumbered estate). Normal income Rs.* 28,900; *on* 30*th September*, 1882, *deficit Rs.* 31,700.

The debt has been slowly reduced from Rs. 59,000 to its present point of Rs. 31,700. The payments to principal during the past year, thanks to excellent collections, were Rs. 6,450, the highest of recent years. Progress has been continuous, though slow; but it will take many years yet to release the estate.

So far as regards collections of rent and other sources of income, the management was generally good; but the balances among under-proprietors were so heavy as to suggest the necessity of prompter action by the Deputy Commissioner under section 158 of the Land Revenue Act, and there was an entire absence of those undertakings for the improvement of the estate and the assistance of the

tenantry which are so distinguishing a feature of the administration in the Rae Bareli district.

The estate was engaged in two very heavy suits, one in which the entire estate was claimed by a brother of the late Rája; the other in which the dowager Ráni sued for a large increase to her allowances. The former has since been dismissed, the latter compromised.

No. 59, *Rájapur (encumbered estate). Normal income Rs.* 13,150; *on* 30*th September*, 1882, *deficit Rs.* 15,700.

The collections were admirable, but a quarter of the whole rental is paid by under-proprietors; and from the analysis given by the Deputy Commissioner, it would appear the punctual payment of their rents requires more attention. The sum of Rs. 279 was spent by the estate on improvements, the character of which is not mentioned; but a great deal more might with advantage be done in this direction.

The debts have been reduced under management from Rs. 30,500 to Rs. 15,700. A sum of Rs. 3,550 was paid towards the principal during the year under report, and four more years with favourable seasons should clear the estate.

No. 60, *Madhpur (wards' estate). Normal income Rs.* 7,100; *on* 30*th September*, 1882, *deficit Rs.* 3,940.

This estate was taken into the Court of Wards in 1880. The liabilities were determined at Rs. 54,324. Eighteen villages, out of the 43 which formed the original property, were sold for Rs. 33,300, which was spent in the reduction of debt and the redemption of 17 villages from the hands of mortgagees. The interest on the balance was, however, in excess of the normal surplus. There was reason to believe that much of the rental was concealed or fraudulently intercepted, and an investigation was made under an officer specially deputed by the Deputy Commissioner. The result was an increase in the rental of the remainder by Rs. 798. This was effected, how-

ever, only by a large issue of ejectment notices, which were in each case served under the personal directions of the Deputy Commissioner, after he had satisfied himself of the fairness of the enhanced rent. The notices were 59 in number.

The rental of the remaining estate was then Rs. 9,808; an area with a rental of Rs. 2,713 was sold for Rs. 15,000. The estate has been reduced to a rental of Rs. 7,100; but the debt is now below Rs. 4,000, and its normal surplus should be in future Rs. 700 or Rs. 800.

The sarbarakár was dismissed during the year for an incapacity which verged on dishonesty. It is therefore the more creditable to the Deputy Commissioner that the collections were nevertheless excellent. In the future it is to be trusted more will now be done for improvements.

No. 61, *Bargdon (wards' estate). Normal income Rs.* 22,200; *on* 30*th September*, 1882, *deficit Rs.* 74,500.

This estate came into the Court of Wards with a debt of Rs. 1,01,000. The interest was light, but progress in its reduction was from the size of the estate necessarily slow. One village was mortgaged for Rs. 16,000 during the year, but there was a surplus of Rs. 9,800 applicable to debt.

Collections were good, but in regard to under-proprietary balances and improvements, the same remarks have to be made as in Kaithola.

No. 62, *Harakpur (wards' estate). Normal income Rs.* 400; *on* 30*th September*, 1882, *credit balance Rs.* 800.

The collections on this little property were fair. The details of the management call for no remark. The balance at credit is invested. A debt of Rs. 9,000 has been paid off. The estate consisted of 2½ villages; one of these had to be sold.

No. 63, *Shamspur (wards' estate). Normal income Rs.* 19,300; *on* 30*th September*, 1882, *deficit Rs.* 37,850.

The sarbarakár of this estate has been since tried for embezzlement. The collections, however, were in all branches good. Rupees 600 were advanced as takávi, but whether for cattle or wells is not explained.

The debt was reduced by Rs. 2,000, but its ultimate liquidation is in a very distant future. The owner was disqualified on his own application.

APPENDICES.
